Before watching the video or exploring the website, review these questions and look for answers during the video.

1. What environmental pressures do our Planet Earth and aquatic ecosystems face?

2. List or draw key features of crappie habitat you notice in the video.

3. What habitat features are great fishing spots for anglers?

4. What positive effects can crappie fishing have on your personal health?

5. What can you learn about your environment while out fishing that can make you a better steward of your water sources?
