Student Worksheet For:

Costs Versus Benefits of Creating Your High School Bass Fishing Club – 101
Your Custom Team Name: _____

Each student has a different stakeholder role and goal in your 3-person team:

1. **Fishing Team Leader** – Your goal is to form a team and show the school officials and other students the various "positive benefits" of forming and belonging in a bass club.

2. **School Administrator** – Your goal is to keep students from costing the school money or legal issues, while making sure all their activities fulfill your school's educational goals.

3. **Boating Safety Officer** – Your goal is to educate bass club members plus all students and their families about the crucial importance of boating safety and about taking a formal boating safety education course.

To help you with pathways and information in fulfilling your various stakeholder goals, watch the 4 videos and research the reference links on this web page;
http://intotheoutdoors.org/topics/high-school-bass-club-101/

Work individually or as a group to come up with the costs versus benefits for each stakeholder role in the section below. Exchange ideas and share how some of your goals may oppose or conflict with each other. Discuss as a team how to best achieve all goals before finalizing your reasons.

COSTS ---------- VERSUS ---------- BENEFITS
